A conversation with **Eric Tistounet**, Chief of the Human Rights Council Branch, Office of the UN High Commissioner for Human Rights and **Gyoung min Yong**, 2nd Secretary, Permanent Mission of the Republic of Korea in Geneva.

The UN Human Rights Council (HRC) adopts numerous resolutions during each session, including resolutions of relevance for local and regional governments (LRGs) in many areas: education, good governance, water and sanitation, housing, inclusion, gender, climate and the environment, digitalisation. These resolutions provide standards and action plans for the UN system and Member States.

The Geneva Cities Hub has started to follow negotiations of UN HRC resolutions which are of relevance to LRGs (see below) and would like to invite interested LRGs to an informal event to analyse these resolutions and explore how they can be of use by LRGs.

Learn about the UN HRC resolutions that are relevant for local and regional governments [on the GCH website](#).

Please note that the UN Human Rights Council's vote on relevant resolutions for LRGs can be [followed live on UN TV](#) (6-7 October 2022).
